SEE IT ♥ LOVE IT ♥ KNIT IT

Welcome to your new look *Knit Today*! If you're thinking about knitting Christmas presents this year you're in the right place. We've got loads of gorgeous quick projects for you to choose from, including Jess Biscoe's clever flip-top mittens, Julia Groves' fun Rudolph toy and Julie Ferguson's quirky Christmas decorations. The year I learnt to knit everyone in my family got scarves. Yes, there were a few dropped stitches, and some dodgy yarn

choices too, but the slightly wonky finished items were still very much appreciated! If you want to sharpen up your skills before you cast on do turn to our extended how to section (starting on page 91) and watch our video tutorials at knit-today.com. Looking for an instant gift? Our guide to the best presents for knitters (page 46) has everything you need for your wishlist to Santa. Personally, I'll be asking for the yarn for our spectacular cover garment. Using super chunky needles, it'll knit up super quick, leaving plenty of time for that all important gift knitting...

5 MINUTES WITH...

SUSAN B. ANDERSON

Hello Susan!
You have a great blog, tell us, when does inspiration strike you? I do a lot of hiking and

running and this is often the time I think through design ideas and construction. If it's something I really want to remember I'll stop and write down the ideas in my phone. There is something about being outside and in nature that is always inspiring to me.

Isn't the knitting revolution amazing?!

I think it is fantastic. I love that the internet and Ravelry have helped to increase the number of knitters in the world and that it is so easy to get information and help now.

We hear some creative knitters have gone to town adapting your designs...

That is always one of the most fun parts of

being a designer I think, to see what others do with your pattern. One time many years ago I designed some chickens that had stripes, dots and embellishments. A knitter then made a beautiful colourwork chart that went along with my chicken pattern. It was amazing and became very popular. I loved that.

What's your most successful design?

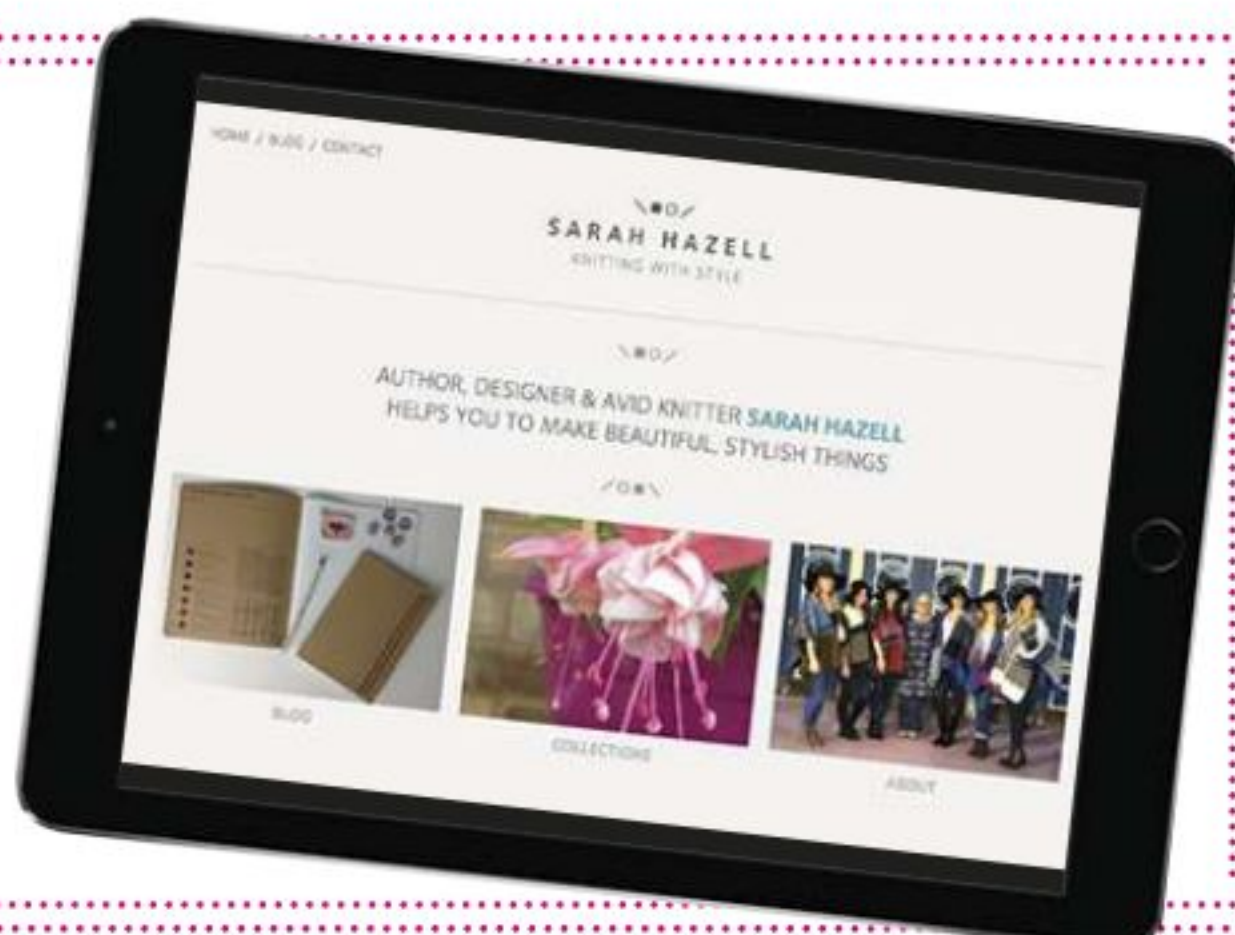

Waiting for Winter Mittens and Fingerless Mitts. It is a standard mitten pattern written for three sizes. I wrote this pattern down after years of knitting mittens off the top of my head. Year after year this pattern sells like crazy. This winter I plan on updating it to include children's and men's sizes as well.

Chart 1

Chart 2

Chart 3

This fabulous Rico cardigan is not only a showstopper make, it's a great introduction to working Fair Isle from a chart as it's knitted on 10mm needles, so it shouldn't take too long!

When working charts, knit odd numbered (RS) rows, reading chart from right to left, and purl even (WS) rows, reading chart from left to right. Strand yarn not in use evenly across WS of the work. Brioche stitch is used to edge the fronts of the garment in a contrast yarn. When working a yarnover followed by a purl stitch wrap the yarn around the needle from front to back and then bring it through your needles to the front of the work again.

Chart sequence for Back & Fronts (72 rows)

12 rows of chart 1.
14 rows of chart 2.
12 rows of chart 1.
14 rows of chart 3.
12 rows of chart 1.
Rows 1–8 only of chart 2.

Chart sequence for Sleeves (46 rows)

12 rows of chart 1.
14 rows of chart 3.
12 rows of chart 1.
Rows 1–8 only of chart 2.

BACK

Using 10mm needles and Cream cast on 63 stitches using the thumb method.

Row 1 (RS): Knit.

Row 2 (WS): K1, purl to last st, k1.

These 2 rows set st st with edge sts - edge sts are knitted on all rows.

Cont as set until work meas 16cm (6 1/4in), ending with a WS row.

Now work from charts using Fair Isle technique, as explained above. Cont to work edge sts in Cream, as knit every row.

Row 1: K1 [edge st], work first row of patt chart 1 [repeat 6 st patt 10 times, then work last st of chart], k1 [edge st].

Row 2: K1, work second row of chart 1 as set, k1.

These 2 rows set Fair Isle patt.

Cont in patt as set, working chart sequence as given for Back, until work meas 64cm (25 1/4in), ending with a WS row.

Continuing in chart sequence as set, work as follows:

Shape armholes

Cast off 5 sts at beg of next 2 rows,

Work should measure approx 88cm (34¾in).
Cast off rem 53 sts.

After the first set up row you will have 9 brioche sts at the end of RS rows and 8 brioche sts at the end of WS rows.

Using 10mm needles and thumb method cast on 6 sts for left front band in Curry. Change to Cream and cast on 32 sts. 38 sts
Set up row (RS): Using Cream, k32, change to Curry, (sl1pwyif, yo, p1) twice, sl1pwyif, yo, k1. 41 sts

The last 2 rows set st st and brioche patt. Cont as set until work measures 16cm (6¼in), ending with a WS row.
Start working from charts using Fair Isle technique, following sequence as before.
Next row (RS): Using Cream, k1 [edge st], work first row of patt chart 1 [repeat 6 st patt 5 times, then work last st of chart] to last 8 sts, change to Curry, brioche patt as set. 41 sts
Next row (WS): Patt 9 Curry sts in brioche patt as set, work 2nd row of patt chart 1 as set to last st, using Cream, k1. 40 sts
Cont as set, working patt sequence for Front until row 40 of patt sequence has been completed (you will have just worked row 2 of chart 3 at this point).

TREE TRINKETS

Feeling excited about getting the decorations down from the attic this year? So are we! The homemade ones are always best, and this Christmas we're rocking these bold and bright knitted baubles. With their neat chevrons worked in electric colours these merry roundels more than earn their place on the tree.

WOOLLY WREATH

Set the scene for a contemporary Christmas with a cool-looking wreath. Bold mono stripes offset gorgeous star flowers in this striking garland.

MAKE IT MERRY

Inject shocks of colour and daring patterns into your Christmas this year. By **Julie Ferguson**

CONTEMPORARY CHRISTMAS

FUNKY DINER

Vivid brights resonate against deep colours in this place mat design, which makes a striking table setting. Yellow, blue and pink chevrons take on a neon hue against the black background and yet will complement the Christmas reds of a poinsettia if you want to mix and match modern and traditional at the dining table.

STOCKING STYLE

Hang this stylish stocking from your mantelpiece, where its colours will zing out from the snow-white of the main stocking, which is finished with a black top and loop for hanging. Chevron patterns are just the right mix of stylish and fun and will suit cool teens, who will love their 'grown-up' stocking – and the gifts inside!

CONTEMPORARY CHRISTMAS

STAR BUNTING

The instant you suspend this merry string of stars the family will know celebrations are in the air – hang them anywhere the festive mood takes you. These chunky stellar shapes are just right for using up leftover yarn too.

CENTREPIECE

For a cheerful blast of colour you can't beat this sunshine yellow table runner with its zingy black and white chevrons. Versatile enough to work in any season, it'll complement the deep green of the Christmas fir and will take on a warm hue in the glow of the fairy lights.

MY KNITTING LIFE

...FROM THE STUDIO

We talk log cabins, the Jurassic era and Pinterest with animal lover and dino hunter **Louise Walker**

"I'M DEFINITELY INSPIRED BY ALL THE FUN FUR ON THE CATWALK"

The days are getting shorter and there's an increasing need for heavier coats, woolly hats, gloves and scarves. Plus we're wishing for a little bit of snow and there's a building excitement for all that Christmas television. All of which means it's that perfect time of year again because, if you're a knitter, there's nothing better than sitting cosied up with a blanket desperately trying to finish all those pressies you thought would be so much fun to make. Add some mulled wine and an open fire to the picture and, like I said – it's just perfect!

1

extinct, which makes them kind of exclusive! One of the projects I set myself this year was creating a collection of faux taxidermy dino knits. For inspiration I visited an animatronic dinosaur park in Bewdley where a good few hours were spent taking

selfies, I mean researching! I often find inspiration in other man-made representations of creatures, and this is a perfect example. I like to see the shapes and then figure out how they would be worked on my needles. The collection includes two big faux trophy heads, T-Rex and Triceratops, a

Diplodocus scarf, Pterodactyl bag and Stegosaurus hat. I wanted most of the pieces to have a really fun and feminine feel as I don't think there are enough dinosaur knits for girls out there (I've redressed the balance with some great dino ideas on www.pinterest.com/louisesincerely/jurassic-june – and no, they're not all pink!).

SCANDI EYE CANDI

Strong black and whites have always been a favourite, in the home and in fashion, and a splash of pastel colour amidst the monochrome can look really fab – check out some faves on my Winter board on Pinterest. It's good to

"COSIED UP WITH A BLANKET
DESPERATELY TRYING TO
FINISH THE PRESSIES..."

To make my winter knits extra special I work hard during the summer to find inspiration, from print design and the catwalks to wool shop visits and, of course, looking at loads of photos of cute, furry animals. I use Pinterest so I can share all my favourite ideas and reveal what I've been working on.

DINO MADNESS!

With the arrival of *Jurassic World* earlier this year, everyone went dinosaur mad. One thing that's always popular with kids are these prehistoric beasts. They're big, full of personality and

see the Scandinavian look continuing. This season's new take on the trend is to work with something minimal and add your own style to it – take a look at the minimalist Scandi influences on Pinterest. I'm definitely inspired by all the fun fur on the catwalk too, it makes me daydream of being wrapped up warm in a rustic wood cabin. I love Stylecraft's Eskimo Kisses or Lion Brand's Pelt. These 'fur' yarns are perfect for creating furry rugs or jackets.

ARCTIC ANIMALS

This season I've been working on a set of Arctic animals using photos of real Arctic wolves, snowy owls, seals and polar

bears that I've pinned to my Arctic Animals board on Pinterest as inspiration. There's something very special about these animals and they make the perfect winter project because if we don't have a white Christmas (and we probably won't) at least we'll be in the company of some snowy friends. I think working to this Nordic theme keeps them contemporary and cute, and as I prefer working in creams rather than whites the critters have a warmer feel. I love creating new knitted trophy heads and couldn't resist making a polar bear to add to the collection. All I need now is the log cabin, big open fire, a glass of mulled wine and I'll be set for the rest of my Christmas knitting!

A LOOK AT LOU'S BOOK

Faux Taxidermy Knits features 15 wild knitting patterns split into two sections, wearables and habitat, inspired by animals you'd love to have as trophies but without all that terrible hunting business!

The projects range from giant specimens, such as the big moose head and tiger rug, to stylish winter warmers, like the wolf headdress, mink wrap and fox scarf. There are even some tiny projects you'll be able to knit up in no time, like the lucky rabbit's foot, bear coasters and quick-knit raccoon hat.

The patterns in *Faux Taxidermy Knits* are categorised into skill level, and there's something for everyone from beginner to expert. The book includes both a templates and a knitting techniques section.

To work a sewn button loop, thread a long length of Colombia onto a yarn needle. Insert it in and under a few stitches in the center of the flip top. Wrap the yarn around your little finger to create a small semi-circular loop. Repeat this two more times so the loop is reinforced. Then, with the needle coming from the left side of the loop, bring it through the middle from back to front, over the top and under the thread. Pull this loop tight and repeat all around. Sew a small button to the centerback of the ribbing where it meets the hand.

Make the flip-top section by picking up and knitting stitches across the back of the hand

 2 Pin the larger red circle to your smaller red circle and stitch them together being sure to gradually and gently ease the circumference of the larger circle into the circumference of the smaller circle. Catch the i-cord ties into the seam at opposite sides of the cushion and pop the cushion pad in when you're about two thirds of the way round. Sew to the end. 

Secure the cushion to your stool underneath using the ties. Add more ties if you require

SIMPLE STEPS HOW TO MAKE AN I CORD

I-cords are so easy to make, and have many uses in knitting. Use them as handles on a knitted bag, ties on a baby's bonnet and 'paper chains' at Christmas, or make them in different colours, sew the ends together and wear them as necklaces.

1 Cast on 3 stitches onto a double pointed needle.

2 Knit these 3 stitches so that they all end up on the right needle. Do not turn your work.

3 Slide stitches from one end of needle to the other. With RS facing you, knit into right-most stitch on left needle, pulling working yarn across the back of the stitches to begin next row.

Short cuff ribs work better when it comes to chunky yarns, leaving them less bulky

SIMPLE STEPS STRETCHY CAST OFF (RUSSIAN)

1 Knit two stitches onto your right-hand needle, one at a time, and slip them back to your left-hand needle without twisting them.

2 Knit the first two stitches on your left-hand needle together. You will end up with a single stitch on your right-hand needle.

3 Knit another stitch and repeat steps 1 and 2 again until the final stitch. You should find that the edge is quite stretchy.

Shula's sweet tail is created by just casting on five stitches and working twelve rows g st

Shula is a sweet sheep, knitted in a combination of bramble stitch and garter stitch. She's created using wonderfully pure, Shetland wool from Jamieson and Smith to create a truly luxurious finish – ideal for gift making! Bramble stitch is easier to work than you think, you just work two knit stitches and a yf into one stitch.

MAKING UP

BODY

Sew a running stitch across the cast on sts and pull these up to close the cast on edge into a tight circle. Join the main seam, leaving a small gap for stuffing and turning. Turn and stuff firmly. Close the gap.

TAIL

Sew the B&T end to the centre back of the body, (the opposite end of the body to the flat portion/cast off end).

LEGS

Join the seam, leaving the cast on edge open. Stuff the legs firmly, and sew onto the base of the body, two on each side of the body's main seam.

HEAD

Using Brown, sew a running stitch around the edge of the flat portion of the front of the body (Rows 44 – 47) to mark where to attach the head. Sew a running stitch through the cast on stitches and pull these up to close the cast on edge onto

a tight circle. Join the remainder of the seam to the marked rows. Stuff the head firmly, and sew the open edges onto the body, using Brown add a running stitch as a guide for positioning, having the B&T (cast off) sts at the centre top.

EARS

Fold the ear in half lengthways, and sew across the cast on edge, leaving all other edges open. Sew the cast on edge of the ears to the head, following the line of where the head meets the body, and having the open edges of the ears facing downwards and centre fold at the top. The top of the ears should be about 3.5cm (1½in) apart.

EYES

Sew the side edges of the eyeballs and pupils to create flat circles. Sew the eyeballs on either side of the head, about 5 sts apart, and about 4.5cm (1¾in) down from where the top of the head meets the body. Sew the pupils on top of the eyeballs. Using the Brown, sew a few stitches running from one eyeball to the next, pulling these stitches up slightly to pull the eyes closer together and to shape the face. The eyes will now be about 1.5cm (¾in) apart.

MOUTH & NOSTRILS

Using fine yarn, sew 2 long daisy stitches for nostrils on either side and above the circle of cast off centre stitches of the head. (The nostrils should be slanted so that the top of the nostrils are about 2.5cm (1in) apart, whilst the bottom of the nostrils are 1cm (½in) apart). Using the same yarn, sew a wide mouth in running stitch, following the third row around the cast on stitches to help create the shape. 🧵

BIG SCREEN KNITS

Get one step closer to the stars of your favorite movies by knitting their on-screen wardrobes! **Cecilia Forfitt** hunts out some classics

- 1 Man up in a knitted *Big Lebowski* cardi
- 2 Live *The Life Aquatic* with a brilliant red beanie
- 3 Do 'Despicable' with a simple striped scarf
- 4 Embrace the Eighties with a cool knit from *Twin Peaks*
- 5 Keep the chill at bay while you sing 'Moonriver' with a *Breakfast At Tiffany's* pullover

Ever found yourself spending more time focusing on the knitwear in films than the storyline? Us too. We've often had to pause a movie to commit a particular stitch to memory. This month we've compiled a list of our favourite silver screen knits for you, so you can relive those crafty celluloid moments forever.

JEFF BRIDGES, THE BIG LEBOWSKI

Of course, we had to include The Dude and his chunky Fair Isle jacket. The original was a Pendleton sweater made at Winona Knitting Mills (now closed down) in the '60s, so there's sadly little hope of laying your hands on one. We didn't have to search for long to find a similar knit, though – someone has gone and recreated it, with exactly the same shades and design, in bulky Cascade yarn. Better still, it's free to download!

Andreaknits.com/dude.html

BILL MURRAY, THE LIFE AQUATIC

You can hardly call yourself a true adventurer unless you have your very own hat to keep your ears warm, and there are plenty of patterns for Steve Zissou-style bright red beanies out there – we love this one from Quince & Co in a gorgeous

cherry red. Whether you add the blue polyester uniform and badge or not is up to you!

InaCap, quinceandco.com

GRU, DESPICABLE ME

The world's greatest villain might not be an obvious trendsetter, but you can't go wrong with a long, stripy scarf that you can wrap around and around your neck multiple times. Gru goes for a monochrome palette to complement his general look, but we prefer

this navy and yellow version from Wool and the Gang, knitted in Woolly Bully Alpaca – something tells us the Minions had a hand in picking these particular shades... Giles Stripy Scarface kit, woolandthegang.com

AUDREY HEPBURN, BREAKFAST AT TIFFANY'S

Oh Holly Golightly, the adorably clumsy, haphazardly fabulous heroine of Blake Edwards' 1961 classic. Although it's her cats-eye shades, bundled up hair and cigarette holder that made the film poster, it's the turtleneck sweater she wears while

learning Portuguese and knitting an enormous, hole-ridden red something-or-other that we fell in love with. We have to add that she happens to be using an old gas bulb as a yarn bowl in this scene – love this girl's resourcefulness! It might

LARA FLYNN BOYLE, TWIN PEAKS

With more than 100 cardigans and sweaters being worn by the weird and wonderful cast members in *Twin Peaks*, it was hard to pick just one from the extensive TV knit-o-rama. We went for this two-tone cardigan, worn by Lara Flynn

Boyle as 'Donna Hayward' in David Lynch's eerie series which is making a comeback in 2017. We can hardly wait to see what knits the cast will be wearing then... This red and grey sweater from Fair Isle & Nordic Knits by Nicki Trench wouldn't look out of place in Donna Hayward's wardrobe. *Fair Isle & Nordic Knits by Nicki Trench, CICO, laughinghens.com/patterns/figgi-yarns/page/fair-isle-nordic-knits-two-tone-sweater-men-women.*

GARTER STITCH

ABOUT GARTER STITCH

Gar­ter stitch is the eas­iest stitch to learn. All you do is knit every row! But, even though it's simple to do, there are lots of ways of using it. Here we show you how to make a log cabin by picking up and knitting across different sides of your work. There are also instructions over the page for how to get a cool woven effect just by changing colours.

PLAIN BANGLE

Using Denim, 6mm needles and the long tail method, cast on 13 sts.

Knit 45 rows, or until work fits around bracelet when slightly stretched.
Cast off knitwise, leaving a yarn tail.

Using the yarn tail, stitch together the two short ends of bangle to make a tube. Insert inside bangle and fold over both long sides so that they meet in the middle on the outside of the bangle. Use a new length of yarn to join the two long sides of the fabric with mattress stitch.

Weave in ends and turn seam to the inside of the bangle.

If desired, you can use a few dabs of superglue to hold the knitting in place by inserting the nozzle through the holes in the fabric and applying a tiny amount.

MAKING UP

With RS together and Beige yarn, seam the two square pieces together around 3 sides. Before seaming the fourth side, turn right side out and insert card if desired. This will stabilise your tray if you plan to move it around.

If desired, you can use a few dabs of superglue to hold the knitting in place - glue the card to the Beige piece but not the log cabin piece.

Seam the final side together neatly. To create the pointed corners, pinch each corner and then make a single sewn stitch where the top and bottom pieces meet. This should hold the corner together. Mold into shape. Spray with starch if you think the tray needs it. 

Log cabins works best in a trio of colours – choose them to suit your bedroom

BABY BOUNTY

Make sure baby is super cosy and snuggly with **Val Pierce's** collection of makes

SIMPLE
SEPARATES

When you first start knitting it's not uncommon for a baby set like this one to take your eye. Traditionally referred to as a 'layette' this collection of sweet, mini clothes can come in many shapes and sizes, from lacy knitted frills to uber modern simplicity. This gorgeous set, from the hands of accomplished knit designer Val Pierce, has been influenced by the colours of Japan, with its gold edged detail and kimono-esque jacket. We recommend starting with the booties first to get a feel for the yarn tension, then moving onto the rest. »

What we love most about this truly stunning plaited cowl is the fact that it's incredibly simple to make. It's basically three straight sections of knitting, made into three stuffed tubes and plaited! As simple as that! Lisa Richardson has chosen a beautiful trio of shades from the Rowan Alpaca Chunky range, each one named after common birds – Wren, Pigeon and Dove. Take care when filling your knitted tubes to create them equally, so that no tube is chunkier than the next. This will leave you with a true

PLAIT STRIPS (MAKE 3)

All rows: Knit.

Work in garter st for 100cm (39½in), ending with RS facing for next row.

MAKING UP

1 Do NOT press.

2 If using toy filling join row-end edges of strips to form long thin tubes.

3 Insert toy filling into tubes so that tubes are softly filled.

4 If using wadding cut 100cm (39½in) lengths of wadding and roll to form long thin sausage shapes.

5 Wrap knitted strips around wadding and join row-end edges of strips.

6 Now plait all three filled strips together to form a soft plait.

7 Join the cast-on and cast-off ends of strips to secure the plait, making sure ends of matching colour strips are joined.

If using wadding, create a wadding sausage then wrap the fabric strips around it

SIMPLE STEPS BACKWARD LOOP CAST ON

1 To work backward loop cast on you need to start off with a slip knot with a long tail. To do this you need to pull out about 12cm of yarn from your yarn ball. Make a loop in the yarn. Place the loop on top of the

yarn to the side of the loop. Pick up the yarn from inside the loop and pull it through. Pull the knot tight, keeping the loop at the top open. Slip the knot onto a knitting needle, and pull it nice and snug.

2 Holding the working yarn taut, scoop your thumb underneath it.

3 Catch the loop with the tip of the needle and pull tight. Repeat from step 2 until you have enough stitches.

NOSE

Using Cherry, make a 6cm (2½in) diameter pom-pom. Once you think you have enough yarn threaded around the pom-pom maker, do an extra couple of rounds for a really densely packed pom-pom. When tying the pom-pom, leave long tails of yarn hanging, enough for sewing the nose to the head.

MAKING UP

1 Using matching yarn and mattress stitch, sew the front and the back of the head together, leaving a gap for stuffing.

2 Stuff until squishy, sew up gap.

3 Join side seams of antlers together, then stuff firmly. Sew cast-on edge of antlers securely to the top of the head.

4 Sew the pom-pom nose to the head, centred in the bottom fifth of the reindeer's face (use the photo as a guide).

5 Sew the eyes in place, centred under the antlers, or position them wherever you feel they look best. 🦋

YARN ALTERNATIVES

- Anchor Artiste Metallic

We've given you two ways to knit this great star project. Work flat on straight needles, and or in the round using double pointed needles. If you want to make a small star hold the yarn single as normal and use 3.25mm needles. To make a large star, hold the yarn double and use 4.5mm needles. Choose straight or double pointed needles in your preferred size depending on whether you want to work flat or in the round. Your kit contains enough to make two small stars or one large star. Save a few short lengths of yarn to make the hanging loops.

KNITTING KNOW-HOW

These step-by-steps, from casting on to casting off, will help you feel confident when you pick up your needles

BACKWARD LOOP CAST ON

The simplest of all cast ons, use this to cast on mid row, or if you need a very loose starting edge.

1 To work backward loop cast on you need to start off with a slip knot with a long tail. To do this you need to pull out about 12cm of yarn from your yarn ball. Make a loop in the yarn. Place the loop on top of the

yarn to the side of the loop. Pick up the yarn from inside the loop and pull it through. Pull the knot tight, keeping the loop at the top open. Slip the knot onto a knitting needle, and pull it nice and snug.

2 Holding the working yarn taut, scoop your thumb underneath it.

3 Catch the loop with the tip of the needle and pull tight. Repeat from step 2 until you have enough stitches.

THUMB OR LONG TAIL CAST ON

The cast on your mum knows! This creates a nice stretchy edge and should be your first cast on choice.

1 Make a slip knot leaving a long tail and place it on your needle. The tail should be at roughly three times the finished width of stitches.

2 Hold the working yarn in your left hand and the tail in your right. Scoop your left thumb under the yarn and pull up to create a loop.

3 Catch the loop with the tip of the needle, wrap the tail yarn around the needle, while still holding the loop taut with your thumb.

4 Slip the loop off your thumb and off the needle. Repeat from step 2 until you have cast on your desired number of stitches.

KNIT STITCH

The stitch you learn first. Knit stitch is what you knit on the 'right side' when making stocking stitch.

Knit stitch is where most knitters start. It's easy to learn, and garter stitch fabric (which is knitted every row) is lovely and squishy, although it is naturally shorter than stocking stitch (knit one row, purl one row and repeat). **Start here, but make sure you give purl stitch a go soon. It's just over the page...**

1 Insert your right needle diagonally, front to back into the first stitch on your left needle. Your needles should be roughly at right angles.

2 Wrap the working yarn around the right needle clockwise and pull this yarn through to the front of the stitch with your right needle.

3 Let the old stitch fall off the left hand needle, keeping the new stitch on the right hand needle. That's your first stitch done!

PURL STITCH

Essentially the same as knit stitch, but worked from the other side of your fabric.

Lots of new knitters stick with knit stitch for a really long time before tackling purl stitch. We think it's worth trying to learn them both at the same time, as it means that you will be able to work stocking stitch fabric straight away. Stocking stitch fabric grows more quickly than garter stitch (knit every row) so you'll feel like you're making faster progress on your project, and that's got to be good, right?

1 Holding the working yarn in your right hand at the front of the work as you look at it, insert your right hand needle diagonally into the first stitch on your left hand needle, from back to front.

2 Wrap the working yarn around the front of your right hand needle anti-clockwise and push this new loop to the back of the stitch, taking your right hand needle tip through the old stitch.

3 Let the old stitch fall off the left hand needle, keeping the new stitch on the right hand needle. You've purlled one stitch. So do some more!

SIMPLE CAST OFF

You've finished your first project, but now what? This cast off makes a nice firm edge and is easy to learn.

The simple cast off creates a firm, hard-wearing edge to your fabric. It can end up being quite tight and pull in the edges of your work, so if you find this happening make sure you aren't tightening your yarn after dropping off your stitch (step 2). If you are still finding it's too tight, try going up a needle size or two, by using a larger needle in your right hand to create bigger stitches to cast off with.

1 Knit two sts. Now insert the tip of your left hand needle into the first stitch you knitted on your right hand needle, from left then right, as in the above picture.

2 Continuing to use your left hand needle tip, lift the first stitch up and over the second stitch you knitted, and drop it off the right needle first and then off the left hand needle.

3 Knit a stitch so that you have two stitches on your right needle and repeat the cast off as before until your last stitch. Break your yarn, thread it through the final stitch and pull taut.

STRETCHY CAST OFF

This cast off is a little more work, but creates a lovely stretchy edge, so it's worth the extra effort!

This stretchy cast off is also known as the Russian cast off. In order to do it you need to know how to knit two stitches together, so see our handy tutorial for this at the top of the opposite page. When you get to the end of this cast off, and have just one stitch left, treat it as you would for the simple cast off – break your yarn, then thread it through the final stitch and pull taut.

1 Knit two stitches onto your right hand needle, one at a time, and slip them back to your left hand needle without twisting them.

2 Knit the first two stitches on your left hand needle together (see top of next page for help!). You will end up with a single stitch on your right hand needle.

3 Knit another stitch and repeat steps 1 and 2 again until the final stitch. You should find that the edge is quite stretchy.

K2TOG

This is the simplest way to decrease stitches and is also used on the stretchy cast off.

There are lots of ways to decrease stitches but the easiest one to learn is probably 'knit two together', commonly known as k2tog. This decrease results in a stitch that 'leans' right, so if a pattern asks for a 'right leaning decrease' this is the one you need to use. For the left leaning decreases (SSK and SSP) see our tutorials over the page.

1 Insert your right hand needle into the next two stitches as if to knit them. Your needle should go into the second stitch on your left hand needle, before the first stitch (see above image).

2 Wrap the working yarn around your right hand needle and pull the loop to the front.

3 Slip the two old stitches off the left hand needle. You should now have a single new stitch on your right hand needle to replace the two old stitches. You've now decreased one stitch.

P2TOG

Your go-to decrease for purl rows, and when you need to decrease on the 'wrong' side in stocking stitch.

The purl two together stitch (p2tog) is used to combine two stitches on a purl row, decreasing one stitch each time you use it. From the purl side of the work it leans left, so when viewed from the right (knit) side in stocking stitch it will lean right, and look like you've made a k2tog stitch on the knit side of the work.

1 With your yarn held at the front of the work, insert your right hand needle into the next two stitches purlwise, from right to left.

2 Wrap the yarn around the front of both stitches anti-clockwise, and push the new loop to the back.

3 Drop the two old stitches off the left hand needle and you will be left with a single stitch on your right hand needle. You've decreased one stitch.

SLIPPING A STITCH PURLWISE AND KNIT WISE

Two ways to move a stitch without working it.

1 To slip a stitch knitwise, insert your right needle into it from front to back as if to knit it and let it fall off the left hand needle. This twists the stitch, and tightens it up.

2 To slip a stitch purlwise, insert your right needle into it from back to front, as if to purl it, and let it fall off the left hand needle. This moves it to the right hand needle untwisted so it stays loose.

HOW TO READ KNITTING CHARTS

Knitting charts follow the same rules unless the pattern states otherwise. Right side rows are usually odd numbers and are worked right to left. Wrong side rows are normally even numbers and are worked left to right. Pattern repeats will be contained in an area outlined in red and some charts will have further coloured outlines for different sizes. The key will give you each symbol and tell you what stitch it is.

SSK

This left leaning decrease is easy to do, and the finished stitch is neater than some other options.

There are several common options for a left leaning decrease. Patterns may also tell you to knit two stitches together through their back loops (k2togtbl) or to slip one stitch, knit the next one, and then pass the slipped stitch over the knitted one and (skp). However, we think slip, slip knit (ssk) is the neatest and easiest way to do it, so unless the pattern says otherwise we use this one every time!

1 Slip the next two stitches knitwise, one at a time, from the left hand needle to the right hand needle. This twists them to tighten them up.

2 Insert your left hand needle through both front loops of the stitches you've just slipped, from back to front.

3 Wrap the yarn around anti-clockwise and pull the loop to the front, and off the left needle. You've decreased one stitch.

SSP

This purled decrease leans right, so if you make it on the wrong side, from the front it looks like an SSK.

Of all the decreases shown in this section slip, slip, purl (ssp) is probably the trickiest to master, as working purl stitches through their back loops can feel a bit fiddly until you get used to it. You'll need to insert the right hand needle from back to front and pull this needle to the front of the left one so that you can purl the two stitches together. Don't give up! It's not as hard as it looks.

1 Slip the next two stitches knitwise, one at a time, from the left hand needle to the right hand needle, as you would if working ssk.

2 Slip them back to the left hand needle by putting your left needle through the front of both of them from left to right and pull them off your right hand needle.

3 With yarn held in front, put your right hand needle through the back loops of both two stitches from back to front, and purl them together. You've decreased one stitch.

YARN OVER & YARN ROUND NEEDLE

These simple increases create a small hole in your work, so they're also used in lace stitch patterns.

1 Yarn overs are used to make increases on knit rows. To make a yarn over, get to the increase point in your row and then take your yarn through your needles to the front of your work.

2 Now take the yarn over the top of your needle to the back of your work before knitting the next stitch as normal. You will now have one extra stitch on your right hand needle.

3 Yarn round needle is used to make increases on purl rows: Get to the increase point, and wrap the yarn around the work, taking the yarn over the needle and then through your needles to the side facing you again.

4 When you work your next stitch you'll find that you now have an extra stitch on your right hand needle. As with a yarn over, there will be a small hole underneath this stitch. This is correct so don't worry about it!

CABLE LEFT/FRONT

Cables have great impact and are surprisingly easy. Here's how to do them over four stitches.

Cable stitches are known by two different sets of names, which can be pretty confusing! To make a left leaning cable, you hold half your stitches at the front of the work on a cable needle, so, for example, a four stitch cable like this may be called C4L or C4F. Usually half the stitches are cabled and half worked as normal. For odd cables (eg, C5L/F) the pattern should tell you what to do with the extra stitch.

1 To make C4L/F slip two sts purlwise onto a cable needle and hold them at the front of your work. This can be a spare double pointed needle, or a special cable needle with a notch in it to stop the stitches sliding off.

2 With the two stitches on the cable needle left 'in wait' for a moment, knit the following two stitches on your left hand needle.

3 Now return to your stitches on the cable needle and knit them onto your right hand needle as well. You should now have two twisted stitches that lean left. The pattern will tell you when to work the next cabled row.

CABLE RIGHT/BACK

Cables are often worked on a background on reverse stocking stitch to make them stand out.

To make a right leaning cable you hold the cable needle at the back of the work as you make the cable – that's why it's also known as the cable back stitch. You may find this stitch more straightforward to work than the cable left. When working a cable stitch be gentle as you hold the yarn, if you hold it too tightly you'll make a hole.

1 Slip two stitches onto your cable needle as for C4L/F. You can hold the cable needle at the front to do this if it's easier, but remember to then move it to the back of your work.

2 Knit the next two stitches on your left hand needle, leaving the stitches on your cable needle at the reverse of your work.

3 Now insert your right hand needle into the first stitch on the cable needle, and knit it, and the following stitch off the cable needle. You should now have two twisted stitches that lean right.

YARN WEIGHTS GUIDE

Yarn comes in different thicknesses, known as weights. Some yarns will include the yarn weight in the name (eg, Rowan Superwash Merino DK), but some weights have several different names!

If you want to swap the yarn suggested in a pattern for a different one, the best way to do this is to find a yarn of the same tension. It is important to remember that there may be more or less meterage in the yarn you are swapping.

So a pattern calling for 10 balls of double knit yarn at 100m per ball (1000m of yarn in total) will need 13 balls of a substituted double knit yarn which only has 80m per ball. If you only use 10 balls you'll be 200m short!

The finest yarn weights all use similar needle sizes, and for lacy patterns may be knitted on much larger needles too.

NAMES	Typical needle size	Typical tension to 10cm or 4in square
Lace	2.25mm to 3.25mm	34 sts and 42 rows
3ply	2.25mm to 3.25mm	32 sts and 40 rows
4ply/ fingering/sock	2.25mm to 3.25mm	28 sts and 36 rows
Baby/sport/ light DK	3.75mm	24 sts and 32 rows
DK (double knit)	4mm	22 sts and 30 rows
Worsted/ light aran	4.5mm	20 sts and 28 rows
Aran	4.5mm to 5mm	18 sts and 24 rows
Chunky	6mm to 8mm	14 sts and 19 rows
Super chunky	9mm upwards	10 sts and 12 rows

PICKING UP STITCHES AND KNITTING

This is a great way to add an edging to a garment, and is often used for neckbands.

When picking up and knitting along a horizontal edge, pick up every stitch. For a vertical edge, pick up and knit a stitch two out of every three rows, or three out of every four rows. If you pick up every row on a vertical edge it will flare out and it won't look good. It is usual to go down a needle size when working an edging, again, to stop the edge flaring out.

1 Insert your right hand needle into centre of the 'V' of your stitch and wrap the working yarn around your right hand needle.

2 Pull the edging yarn through the middle of the picked up stitch. You have now got a single new stitch on your needle.

3 Put your right hand needle back into the 'V' of the next stitch and repeat until you have picked up and knitted the required number of stitches for your edging.

COSY CABLE JACKET

The best things often start out small, like **Kyoko Nakayoshi's** chunky cabled jacket!

The Cable Yoke Jacket is the best thing I've ever created, I love it so much I made one for myself. It features deep chunky cables, the wrap-and-turn short row technique and plain stockinette – all the stitches I love. It's as much fun to make as it is to wear!

The jacket was originally designed for a baby. My sister had had her first baby and I wanted to make something cosy and special for her son. It turned out that everyone else really liked it and I had many requests to make an adult-sized version – so I did! It was a challenge at first, because I had to make sure the horizontal cables that span around the

shoulder were all in proportion. So I added extra cable motifs and used a Jamieson's of Shetland Marl, a chunky weight yarn, rather than Heather, an aran that was originally used for the baby version. Also, I had to work out the most logical way of working the short rows with the new sets of cables.

If you visit the Jamieson's of Shetland shop or see their stand at the Knitting & Stitching show, you'll find the original knitted sample. I'm so proud of it every time I wear it. It's become even more special to me now, because my baby daughter can wear the matching jacket!
